State of Utah  
Oil and Gas Conservation Commission  
Room 310  
New House Building  
Salt Lake City, Utah

Gentlemen:

Pursuant to our discussion this date, I am herewith submitting application for location of William H. Oaks estate Fee No. 2 well.

As we determined during our conversation this location will require a public hearing and request is herewith made that you establish a hearing date in early August for this purpose. The actual notice form OGCC-1 will be submitted by the middle of next week after I have had an opportunity to evaluate possible location sites in the light of our discussion this morning.

Respectfully yours,

  
W. ROSSBERG

W. Rossberg  
2615 Yermo Avenue

(INDICATE ABOVE BY CHECK MARK NATURE OF REPORT, NOTICE, OR OTHER DATA)

July 12, 1961

William H. Oaks Estate,  
 Well No. Fee #2 is located 660 ft. from SW line and 2492 ft. from E line of Sec. 16  
SW<sub>1</sub> SE<sub>1</sub> Sec. 16 4 South 21 East SLBM  
( $\frac{1}{4}$  Sec. and Sec. No.) (Twp.) (Range) (Meridian)  
Wildcat Uintah Utah  
(Field) (County or Subdivision) (State or Territory)

The elevation of the derrick floor above sea level is 5309 feet.

A drilling and plugging bond has been filed with UO & GCC -(will be filed upon approval)

### DETAILS OF WORK

(State names of and expected depths to objective sands; show sizes, weights, and lengths of proposed casings; indicate mudding jobs, cementing points, and all other important work, surface formation, and date anticipate spudding-in.)  
 This is a redrill of the Wm. H. Oaks #1 well which encountered oil shows from 602 ft. to 639 ft. and from 760 ft. to 799 ft. but was apparently mudded off in the rotary drilling process. Expected pay zone is a fractured strata of the Mancos Shale from about 602 ft. to 639 ft. No dual zone completion will be attempted in this hole however bottom will be about 675 ft. allowing for a sump. Surface casing will consist of not less than 70 ft. of 7" or larger, J-55 casing set at least 30 ft. into the Mancos Shale and cemented bottom to top with neat cement. Surface formation is Quartzite boulders to about 39 ft then Mancos Shale. Production casing to be determined after oil is encountered. however it will conform to UO&GCC rules and regulations. Method of drilling will be rotary air, with crude through the pay zone. Contractor to be M & S Drilling Co., Rangely, Colorado. Spudding date after hearing and approval.

I understand that this plan of work must receive approval in writing by the Commission before operations may be commenced.

Company W. Rossberg & Associates

Address 2515 Yermo Ave.

Salt Lake City, Utah

INSTRUCTIONS: A plat or map must be attached to this form showing the location of all leases, property lines, drilling and producing wells, within an area of sufficient size so that the Commission may determine whether the location of the well conforms to applicable rules, regulations and orders.

July 18, 1961

Mr. Wilfried Rossberg  
2615 Yermo Avenue  
Salt Lake City, Utah

Dear Mr. Rossberg:

We are in receipt of your letter of July 5, 1961, in which you request that we schedule a hearing for the early part of August on your proposed location for Well No. William H. Oaks estate Fee No. 2.

Before we can fulfill your request we must receive your Notice of Intention to Drill (Form OGCC-1) showing said location site for the well. It will be necessary for this notice to be filed with us immediately in order that we may publish legal notice within the required amount of time before the hearing.

Very truly yours,

OIL & GAS CONSERVATION COMMISSION

CLEON B. FREIGHT,  
EXECUTIVE SECRETARY

W. ROSSBERG & ASSOCIATES FOR AN :  
EXCEPTION TO THE REQUIREMENTS OF :  
RULE C-3, GENERAL RULES AND :  
REGULATIONS AND RULES OF PRACTICE :  
AND PROCEDURE

NOTICE OF HEARING

Cause No. 60

-----  
Notice is hereby given that a hearing will be held on Tuesday,  
August 15, 1961, at 10:00 A. M., in the Commission Offices, 310 Newhouse  
Building, Salt Lake City, Utah, upon the application of W. Rossberg &  
Associates to drill a well approximately 660 feet from the south line and  
2492 feet from the east line of Section 16, Township 4 South, Range 21  
East, SLBM, Uintah County, Utah.

Said hearing will be held to determine if an exception to the  
requirements of Rule C-3, General Rules and Regulations and Rules of  
Practice and Procedure, Oil and Gas Conservation Commission, State of Utah,  
will be allowed, or such other action or relief as the Commission may deem  
appropriate.

Salt Lake City, Utah

Attn: Mr. Wilfried Rossberg

Gentlemen:

This is to acknowledge receipt of your notice of intention to drill Well No. William H. Oaks Estate, Fee #2, which is to be located 660 feet from the south line and 2492 feet from the east line of Section 16, Township 4 South, Range 21 East, SLBM, Uintah County, Utah.

Please be advised that approval to drill said well is hereby granted in accordance with the Order to Show Cause in Cause No. 60, being effective as of September 5, 1961.

This approval terminates within 90 days if the above mentioned well has not been spudded in within said period.

Please take note that should it be necessary to plug and abandon said well you are hereby requested to give advance notice of the date and time said plugging will take place to one of the following named individuals, by phone or otherwise, in order that our petroleum engineer may be present to inspect the manner in which the well is being plugged:

C. B. FEICHT, Executive Secretary

December 19, 1962

Dear Connie,

We wish you a Merry Christmas, we wish you a Merry Christmas, we wish you a Merry Christmas, and a Happy New Year.

Thanks much for the assistance on these old wells---I'm trying to get my books nice and clean for the new year and some of these operators are nigh impossible to get dope from. Today the problem child is in Uintah County:

W. Rossberg & Assoc  
#2 William H. Oakes Estate-Fee  
16-4S-21E SW SE

I understand this well has been completed; Mr. Rossberg is never in and his home seems to be the only place where he can be reached.  
Thank you again.

Sincerely,

John Bailey

Well completed on 2-6-10-1963

Gentlemen:

Our records indicate that you have not filed a Monthly Report of Operations for the month of April, 1964, for the subject wells. Rule C-22(1), General Rules and Regulations and Rules of Practice and Procedure, Utah State Oil and Gas Conservation Commission requires that said reports be filed on or before the sixteenth (16) day of the succeeding month. This report may be filed on Form OGCC-1b (U. S. Geological Survey Form 9-551, "Monthly Notices and Report on Wells"), or on company forms containing substantially the same information. We are enclosing forms for your convenience.

Your immediate attention is required in this matter.

Very truly yours,

OIL & GAS CONSERVATION COMMISSION

# INSTRUCTIONS

**General:** This form is designed for submitting a complete and correct well completion report and log on all types of lands and leases to either a Federal agency or a State agency, or both, pursuant to applicable Federal and/or State laws and regulations. Any necessary special instructions concerning the use of this form and the number of copies to be submitted, particularly with regard to local, area, or regional procedures and practices, either are shown below or will be issued by, or may be obtained from, the local Federal and/or State office. See instructions on items 22 and 24, and 33, below regarding separate reports for separate completions.

If not filed prior to the time this summary record is submitted, copies of all currently available logs (drillers, geologists, sample and core analysis, all types electric, etc.), formation and pressure tests, and directional surveys, should be attached hereto, to the extent required by applicable Federal and/or State laws and regulations. All attachments should be listed on this form, see item 35.

**Item 4:** If there are no applicable State requirements, locations on Federal or Indian land should be described in accordance with Federal requirements. Consult local State or Federal office for specific instructions.

**Item 18:** Indicate which elevation is used as reference (where not otherwise shown) for depth measurements given in other spaces on this form and in any attachments.

**Items 22 and 24:** If this well is completed for separate production from more than one interval zone (multiple completion), so state in item 22, and in item 24 show the producing interval, or intervals, top(s), bottom(s) and name(s) (if any) for only the interval reported in item 33. Submit a separate report (page) on this form, adequately identified, for each additional interval to be separately produced, showing the additional data pertinent to such interval.

**Item 29: "Sacks Cement":** Attached supplemental records for this well should show the details of any multiple stage cementing and the location of the cementing tool.

**Item 33:** Submit a separate completion report on this form for each interval to be separately produced. (See instruction for items 22 and 24 above.)

37. SUMMARY OF POROUS ZONES: SHOW ALL IMPORTANT ZONES OF POROSITY AND CONTENTS THEREOF; CORED INTERVALS; AND ALL DRILL-STEM TESTS, INCLUDING DEPTH INTERVAL TESTED, CUSHION USED, TIME TOOL OPEN, FLOWING AND SHUT-IN PRESSURES, AND RECOVERIES				38. GEOLOGIC MARKERS
